MANAGE YOUR PROJECTS AND RESOURCES WHEREVER AND WHENEVER YOU ARE WITH MORE CONTROL AND FLEXIBILITY

AJAXWorkspace puts the power and ease of project management and collaboration in the hands of its users while demanding no effort from your IT personnel - reducing costs and increasing efficiency.

You have successfully expand your company business and of course the number of employees too. You started to adopt SOP into your daily activities hoping that your employee will start practicing it to avoid miscommunication. However, this is just not good enough without an IT system that can assist your employees in organizing tasks, managing projects and coordinate among each other within a central location.

AJAXWorkspace is the answer for what you need. A secure Web-based application which consists of an integrated suite of simple and easy-to-use project management and collaboration functionalities that not only adapts to the way you do business
—it also ensures higher productivity at lower costs. Your organization can run on a smooth project management cycle with ease and ensure each project timeline and milestones are met without unnecessary delays.
Your IT team enjoys a rapid, low-cost deployment and low support costs, while your users enjoy an easy-to-use system that's built to fit exactly the way they prefer to work.

AJAXWorkspace

Increase User Adoption

Ensure User Follows Best Practices

AJAXWorkspace lets your users execute their day-to-day tasks using guided task template that is designed to follow the best practices, ensuring each task is taken good care of. Work is streamlined and processes are simplified.

Create a Single, Personal View

From tasks, documents to news all your required information is publish in a single dashboard. What makes it even better is you can easily move the segments across the page to create your own personalized view.

Safe and Reliable

Secure and Reliable

We provide up to 99.99% of server uptime. Our servers are all equipped with redundant data storage, firewall protection, redundant Internet connections, and on-site security in our state-of-art data center to ensure all your data is protected, backed up and available 24 hours a day, 7 days a week.

Coordinate, Share and Manage

Coordinate Your Team

AJAXWorkspace allow you to plan your team resources and coordinate with each other in order to achieve a particular project milestone or goal. With **AJAXWorkspace**, assigning tasks and keeping track of it has never been this easy, together with it's auto email reminder and dashboard you can be assured that no task will be left unattended.

Sharing of Information

Sync up with your team and let each other knows the latest progress. This can be easily done by posting news, create discussion or upload file through **AJAXWorkspace** integrated collaboration tools.

Manage

Manage your events calendar, contacts and emails all in one system. Reduce the hassle of accessing multiple systems.

Reduce IT Costs

Fast, Efficient Installs Speed Time to Run

As **AJAXWorkspace** is a web-based application, installing and updating can be done on the server itself and it is seamless to the client machine. This way, maintenance releases can be centrally deployed, hence reducing the burden on IT personnel.
